**Subject:** Share folder Data PDF files access issue.

Dear Richa Ji,

As per your reported below issue has been resolved and under observation.

**Issue reported :**

- Share Project Folder Some PDF files are not accessible. (Ex. Path : \\192.168.0.25\Mumbai\_HO\Projects\Project\_AUDA\Letters Incoming & Outgoing\Outgoing)

**Solution Provided :**

- **VPN profile configuration file has updated and data access speed has been increased.**
- Found that which files are you want to access, that files are not uploaded completely and some of file size showing "0 KB". That needs to be reuploaded from the respective site.
- Recommended to use LAN connection for VPN through shared DATA access.

If any further assistance is required please let us know.
