--- Description ---

While making Down payment to the Vendor we are deducting TDS. After that when we are recording Invoice related to that particular down Payment we are deducting TDS on Balance amount i.e. amount of invoice less down payment. So when we clear Down payment and invoice against each other by F110 or F-53 system is adding the amount of TDS deducted at the time of Down payment made which has resulted in excess payment to vendor.

Hi Manish

Thanks for your time on call.

As we have discussed kindly change central invoice in Tax type configuration as mention in screenshot

Avoid manual enter while posting invoice and use F-54 or DPC button in MIRO for down payment clearing.

Also refer the KBA [3385979 Central KBA for Country India localization: Overview, Configuration, Standard scenarios and FAQ's](#)

It will help you a lot Kindly test in your system if there is any query or my assistance is required please let me know.

Best Regards

Naresh
