Dear Rahul

We have checked and tested the DRFOUT and ZMM022 functionality for newly created materials in S/4 HANA, now it is working fine (Product - Product Administration and BOQ & Cost Estimation) but we need to keep it under observation for at least 10 days to check upcoming new requirements.

I will contact you if there will be any issue while updating the materials from S/4 HANA to C4C.

Also I request PwC-C4C team (Mr. Vishal Shokeen) to update the Voice Tool incident number INC-2024-02148 (current status is In progress) and keep it with Resolved status.

The following screenshots for your reference :

Also you are requested to please check the below Data Path, it takes 15 to 20 minutes to fetch data from EPC-Database, please reduce the time, this issue is already discussed with Mr. Yogesh Singh and Mr. Vishal Shokeen during the time of implementation and during our regular working hours but still we are facing this.

Dear Atish ji ,

We are working on the C4C - CX issue , i would like to thank you for being patient with the issue however we are still working on the issue.

We are targeting to close the issue shortly and we shall confirm you the closure dates in the upcoming week.

Thank you

Regards
Rahul Sharma
