Dear Manish ji

We have received another solar project under the KUSUM scheme with a capacity of **92MW**. In line with the previous process we followed for the **109MW** project, we now need to create the corresponding SAP codes for this new project **92MW**.

SAP code needs to be created for both:

- **SPV side**
- **VEL side**

Request you to kindly initiate the necessary steps and do the needful at the earliest, required documents are enclosed.

Regards
Avinash Pohankar
